

May 20, 1985

LB 31, 60, 218, 501, 668, 685  
LR 276

child pornography, but that doesn't mean that Nebraska can't be a leader for the Midwest. Most of the other states, and including the federal government, have strengthened the laws on child pornography, contrary to what you may have heard a few minutes ago. So perhaps after this bill is advanced, and I just move the advancement now of the bill, our sister states will follow suit along with Nebraska and the federal government. Thank you, senators.

SPEAKER NICHOL: You've heard the closing. The question is the advancement of the bill. All those in favor vote aye, opposed nay. Record, Mr. Clerk, please.

CLERK: 32 ayes, 0 nays to advance the bill, Mr. President.

SPEAKER NICHOL: LB 668 advances. LB 60.

CLERK: Mr. President, some things to read in, if I might, right before that.

SPEAKER NICHOL: Yes.

CLERK: New resolution by Senator Beutler. (Read introduction to LR 276.)

Public Health reports 685 to General File, and 218 indefinitely postponed. Those are signed by Senator Wesely.

Enrollment and Review reports LB 31 to Select File with E & R amendments, and 501 to Select File with E & R amendments. Those signed by Senator Hall as Chair. (See page 2397 of the Legislative Journal.)

Mr. President, LB 60 was a bill introduced by Senators Rogers and Pappas. (Read title.) The bill was referred to the Ag and Environment Committee for hearing, advanced to General File. The bill was considered on April 2nd. At that time the committee amendments were adopted. The motion to indefinitely postpone, at that time, prevailed. There was a motion to reconsider that action offered by Senator Haberman that was successful. The bill is now presently before the Legislature. I have a series of amendments pending.

SPEAKER NICHOL: Senator Pappas, did you wish to talk briefly about the bill first?
